

Kemal Sinecan, CTO, presents on "Transformation Office and Project Management Culture," seamlessly integrating technology into the Bank's strategic direction. The presentation outlines a roadmap for performance monitoring and technology implementation, emphasizing innovation, digital transformation, and a robust project management culture. Key steps include identifying pain points, leveraging Group wide synergy, optimizing solutions, staff involvement, implementation, and vigilant monitoring. Mr. Sinecan highlights the strategic use of Robotic Process Automation (RPA) and Business Process Management (BPM) tools to enhance efficiency and operational excellence. Moreover, the presentation advocates for embedding a continuous improvement culture within TBUK, ensuring adaptability to evolving technological landscapes. Overall, Mr. Sinecan's insights position technology as a catalyst for innovation and resilience, aligning with TBUK's broader strategic vision for sustained operational excellence.
